Allowable Subject Matter

Claims 20 – 23, 25, 26, 29 – 36, and 38 – 42 are allowed. The prior art of record fail to teach a system for monitoring at least one apparatus in a vehicle comprising, among other limitations, a gateway node situated in the vehicle that is electrically coupled to a vehicle bus, a sensor for communicating at least one error code to the gateway node via the vehicle bus using network protocol – the node including a controller arrangement and a first wireless protocol arrangement, the first wireless protocol arrangement being coupled to the controller arrangement and a processor communicating with the node via a second wireless protocol arrangement that communicates with the first wireless protocol arrangement – the sensor interrogating the apparatus for the at least one error code in response to receipt of a request from the processor, the request being made by the processor in response to a user input.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. As per attached PTO-892.
